WHY CHOOSE

ViroDisinfect

ViroDisinfect uses an **EPA-registered disinfectant** that meet their criteria for helping **prevent the spread of SARS-CoV-2**, the coronavirus that causes COVID-19.

Kills 99.99% of bacteria and viruses on hard surfaces.

Low toxicity. Rated by the EPA as Toxicity Category IV, their lowest toxicity rating, defined as “practically non-toxic and not an irritant”.

Additional Line of Defense. steps up your sanitation efforts and gives customers added peace of mind.

Control Odors. Effective on tobacco smoke, cooking odors, sports equipment and pet urine.

Brezden ViroDisinfect

uses a powerful but Eco-friendly disinfectant product applied by trained Technicians to kill bacteria and viruses on surfaces.

STEPS ON HOW

Treatment Works

Step 1:

Brezden's technicians will arrive at the location at the agreed upon time. Customers can assist the technicians by making the treatment areas easily accessible.

Step 2:

Our trained technicians will wipe down all door knobs and frequently touched surfaces in each location, applying a mist application using specialized equipment.

Step 3:

Let the disinfectant dry undisturbed for 10 to 15 minutes. Average time for 1500 sq ft location is about an hour. Customers can go back inside immediately after treatment.
